## Destination profile - China

**China** – China’s civilization is the oldest in the world and has a history dating back over 5,000 years. With 56 ethnic groups, 22 provinces and 8 major dialects, China has a rich and varied culture and way of life and is home to a wealth of tourist sights and cultural relics which entice our guests to return again and again to this exciting destination.

**Development in China** - Though parts of China match the west in modernity and technological advances, it is important to remember that China is still a developing country and as such, many aspects of tourism in China do not have the solid infrastructure and safety standards as seen here in the west. It is important that our guests travel to China with an open mind and a sense of humour.

**Roads in China** - Roads in China have generally been improved over recent years, but traffic and/or weather conditions may extend driving times. Road construction work usually covers an enormous section of road – not just 1-2 kilometres as you may be used to. There may be sections of road where the surface may be comparatively bumpy but our drivers will do their utmost to lessen the impact.

**Cuisine in China** - Chinese cuisine is one of the most influential, diverse and flavoursome culinary styles in the world with a legacy stretching back thousands of years. Chinese dishes incorporate many spices and seasoning to create an explosion of flavours. Though Chinese cuisine can vary greatly from Chinese food we get in the UK, it is important to keep an open mind and be adventurous. Please be aware that dishes selected for your meals reflect the cooking styles and signature dishes of the local area you are in.

## Physical Description

On arrival at the Grand Buddha there is a 5 minute walk up to the entrance of the park. From here there are 250 steps to ascend and a similar amount to descend to the feet of the Buddha; a time of approx. 2 hours. The steps are extremely steep and can be very slippery in wet weather. There are handrails but the utmost care is still required. You must be physically capable if you decide to take part. Once you have started the walk to the feet of the Buddha you are committed as the steps are very narrow and strictly one-way only.

## Destination Information

**Leshan Grand Buddha** – The Leshan Buddha was built in the 9<sup>th</sup> century under the direction of Haitong, a monk who felt the presence of Buddha would help calm the waters below so that shipping vessels could make their journey safely. Amazingly, once the structure was completed, the waters below did calm, some say due to the Buddha's presence, others to the large amount of rock removed in order to carve the Buddha, which resulted in a current change in the waters. The Buddha remains watching over the waters below; no position gives a better view of this structure than from a boat ride along the river.

**Emeishan** – One of the Four Sacred Buddhist Mountains of China, Emeishan is located in Sichuan Province and has been a UNESCO World Heritage Site since 1996. Emeishan is home to the first Buddhist temple to be built in China, dating back to the 1<sup>st</sup> century.
